

Athletics Australia PI Medical Diagnostics Form

Medical Diagnostics Form for athletes with physical impairment

The form is to be completed by the athlete's medical doctor, if the athlete does not have relevant medical information. In the case that you have a current medical letter stating the diagnosis, impairment and physical from a specialist you may submit it in place of this form.

The completed form must be sent to Athletics Australia no later than 2 weeks before the athlete undergoes classification. Depending on the athlete's health condition and impairment, additional medical information is to be attached to this form (see page 2).

Athlete Information

Athlete name: _____
Address: _____
Gender: Female Male Date of Birth: _____

Attachments

The athlete's health condition as stated on this form and associated impairment must fully explain the loss of function exhibited by the athlete during classification. Otherwise no sport class can be allocated by the classification panel, as stipulated in the IPC Athletics classification rules.

Additional, recent and relevant medical documentation has to be attached to this form if the athlete has*

- an impairment or diagnosis that cannot be ascertained by clear signs and symptoms;
- a complex or rare health condition, or multiple impairments;
- limb deficiency (amputation or dysmelia) at the level of the wrist (X-rays for the respective joints to be enclosed);
- a spinal cord injury (recent ASIA scale results to be enclosed, within 2 years);
- hypertonia (Modified Ashworth Scale scores to be enclosed).

Other reports by physicians, physiotherapists and other health professionals are welcomed, where relevant, to complement the medical diagnostic information.

Athletics Australia and the Classification Panel may ask for further information to be submitted depending on the individual athlete's health condition and impairment.

I confirm that the above information is accurate.
