

Rob is an experienced and accomplished Senior Executive and Director with a 30-year strong track record of delivery and business development in high profile and global companies. With extensive IT industry experience with a flair for building positive relationships with key customers and business partners across all levels of management. Rob is an energetic and positive professional who has a passion for meeting targets and being part of a team.

“I have a strong sense for community and have sought to transition and use my skills to represent the community in the area of sports management after a long successful corporate career. I am the current President of the Diamond Valley Athletic Club and I have presided the club over the last 10 years towards significant growth, both in participation, performance as well as financial stability. We believe the club is now one of the top tier clubs in Victoria.

My strength is a strong member focus and building relationships based on strong delivery using a team-based outcome focused approach. This approach has led to an integrated broad club management system involving Council, Little Athletics, Sponsors and other stakeholders.

I believe that I can contribute in assisting Athletics Victoria in becoming the great organisation we want it to be whilst restoring a club and ‘grass-roots’ based summer competition.

I have worked closely with senior clients at CIO/CEO level and internal delivery organisations to achieve excellent business outcomes. I have experience particularly in transformations and improvement programs of work.

I have a proven track record in building, collaborating and executing on strategy. I like working in a committee-based management system and achieving outcomes together. I have led small and very large teams and organisations and driven them to achieve joint goals and objectives.”
