

Rohan has been on the Committee of Athletics Victoria for the past 8 years and is currently Vice President. He runs for Athletics Waverley, primarily in the winter season (although not as fast or often as he'd like).

Rohan's previous role was with National Australia Bank as Head of Performance Alignment, responsible for driving the link between organisational strategy and performance management for the bank's top 200 executives. His professional background includes extensive experience across consulting, financial risk management and education. Rohan has now started his new business consulting to various organisations in his areas of expertise.
